*A property owner or owner's authorized agent who intends to conduct an operation or business or install or modify systems and equipment that are regulated by the City of Lancaster Fire Code, or to cause any such work to be performed, shall first make application to the fire code official, and obtain the required permit. An operational permit allows the applicant to conduct an operation or a business for which a permit is required by Section 105.6 for either a prescribed period, or until renewed or revoked. A construction permit allows the applicant to install or modify systems and equipment for which a permit is required by Section 105.7. Consult page 2 for a list of permit types and fees. Application for a permit required by this code shall be made to the fire code official in such form and detail as prescribed by the fire code official. Applications for permits shall be accompanied by such plans as prescribed by the fire code official. **No permits will be issued without fees paid.***
