## **CONTRACT FOR CITY OF LANCASTER – WATER AND/OR SEWER SERVICE**

In consideration of my premises being furnished with water service from the City of Lancaster, I hereby, for myself and my successors in title to the aforesaid premises, with the intent that this agreement shall constitute a covenant running with said land and premises, agree (1) to pay or secure the payment to said city of all ready-to-serve, consumption and other charges, and to comply with and be bound by all water system rules and regulations, established by present or future City Ordinances, so long as I shall be the owner of said premises (regardless of whether tenanted by me or not) and thereafter until I shall in writing notify the city Bureau of Water of the name of the new owner thereof; (2) to permit agents of the city at all reasonable times to read, repair, or remove for test, repair or replacement, my water meter on said premises, to provide free access to them for the same, and to promptly pay to the city the cost of such meter repairs or replacements as may be required by the said Bureau of Water; (three inch and over size meters are maintained and tested at the customer's expense). (3) to place and maintain my said meter easy of access and not to remove the same from my said premises or make substitutions therefore, or permit such removal or substitution, without the written consent of the said Bureau of Water; and (4) to insert a notice of this agreement in any deeds by which I may part with any of my title to said premises.
