# BLOOD LEAD SCREENING FORM/WAIVER

LEAD HAZARD CONTROL PROGRAM | HEALTHY HOMES PROGRAM | CRITICAL REPAIR PROGRAM

Occupant's Name:
Resident Address:
It is strongly recommended that all children under the age of six (6) have their blood lead level tested prior to the lead hazard exposure from renovation activity in your home. Lead poisoning can cause permanent damage to children – especially babies and kids. Lead poisoning can cause learning disabilities, aggressive behavior, ADHD, decreased IQ, hearing loss and speech delays. A child is considered to have an Elevated Blood Lead Level (EBL) or poisoned if their blood lead test result is 5mcg/dL or higher.
The City of Lancaster Lead Hazard Control Program requests testing information, or waiver of testing, as a requirement for application will strictly adhere to Personally Identifiable Information (PII) policies when it comes to the handling of medical information. Children with elevated blood level results will be recommended for appropriate medical follow-up with their health care provider or local healthcare service agencies. Parents who wish to have their child (children) tested can also be referred to appropriate providers.
Please initial one of the following that best describes your household:
My child (children) under six <b>have</b> had their blood levels tested in the past six (6) months preceding the lead reduction work. I agree to forward this information to the City of Lancaster Lead Hazard Control Program.
My child (children0 under six <b>have not</b> had their blood lead levels test in the past six (6) months and I agree to have them tested. I agree to forward testing to the City of Lancaster Lead Hazard Control Program.
For religious and/or personal reasons, <b>I choose not</b> to have my child (children) tested for lead poisoning. I am aware of the risks associated with not knowing whether my child (children) is (are) lead poisoned.
I/We voluntarily disclose this information. I/We understand that disclosure of this information will only be used for the purposes of the Lead Hazard Control Program.
Parent/Guardian Signature Date
NOTE: The use of a three (3) month time reference in this sample form assumes that it may take an additional two-three months from the time the owner applies for the program to the time that hazard reduction commences on a child's home. Thus, the overall period

the time the owner applies for the program to the time that hazard reduction commences on a child's home. Thus, the overall period between blood testing and hazard reduction activities would not exceed six (6) months.

### AUTHORIZATION TO RELEASE INFORMATION

Occupant's Name:	
Resident Address:	
Giving Permission: I give permission for the person/organize requested information to the City of Lancaster's Lead Safety and to figure my eligibility for the program service.
